

16 School Street
New London, Conn.
October 11, 1967

Dear Mr. Weisberg,

Thank-you for answering my letter. I realize you are busy though.

Enclosed are two photographs and a crude sketch for you. These pictures you see are blown up to about 3 ft. x 2 ft. We had George Thomson from Glendale, Calif. speak at our house. As you can plainly see the "third man" is right between Mrs. J.F.K. + J.F.K.

A third man was mentioned in Mr. Hollands testimony. Also Jean Hill thought she saw a dog in the presidential car. It was the "third mans" head. The white blur by his face is Mrs. Kennedy's glove. Now, look at Mrs. Kennedy's and Governor Connally's face. They are looking at the "third man".

Also in the photographs are two large pictures, one of Tippit, the other of Kennedy. Notice how similar there face structure is. That's why it was possible for Tippit, disguised a little, could look like J.F.K.

Jippit has a larger frame than Kennedy has though. That would explain Dr. Perry's mysterious remark "he's bigger than I thought."

Also in the photograph is a picture of Governor + Mrs. Connally. Both of them seem to have round puffy faces. Also Connally ~~has~~ ^{DOES NOT} a "cowboy" style hat on. At the hospital this article was never mentioned as being taken from the car at Parkland Hospital. In the book "Four Days" put out by American Heritage you see Governor Connally at Love Field. He has a skinny face, sharper nose, and a "cowboy" hat on!

I realize, as you said before, you were very busy; but I would like a reply. Tell me what you think of the pictures!

Enclosed is a "Murder Map" for you.

Enclosed is a self addressed-stamped envelope.

Sincerely,
Lindsay Alloway

Third man
in car.
